

## 03.02.02.D0.02 University Mission Statement

Approved: February 27, 2017

Revised:

Next Scheduled Review: February 27, 2020

---

### Procedure Statement

---

Changes in the mission statement of Texas A&M University-Central Texas (A&M-Central Texas) require the approval of the Texas A&M University System (TAMUS) Board of Regents (BOR) and the Texas Higher Education Coordinating Board (THECB).

---

### Reason for Procedure

---

A mission statement is a clear and broad statement that describes the overall purpose of the organization with respect to its teaching, research and public service responsibility. The mission statement guides decision-making and strategic planning. Normally, a mission statement is not modified unless there is a significant change in focus or overall purpose of the organization. The existing mission statement remains in effect until university stakeholders, the TAMUS BOR and the THECB approve the revised mission statement.

A change in the established mission of the institution is a substantive change for institutions accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) and requires timely notification of SACSCOC.

---

### Procedures and Responsibilities

---

#### 1. DEVELOPING A MISSION STATEMENT

- 1.1 Mission statements are drafted with input and suggestions from the university community.
- 1.2 The university mission statement should be short and focused but broad enough to encompass the entire organization.
- 1.3 The mission statement is reviewed every five years (5) to ensure that it is still current and appropriate for the university.

## 2. APPROVAL OF THE MISSION STATEMENT

- 2.1 The mission statement is submitted to the TAMUS BOR for approval.
- 2.2 Once approved by the TAMUS BOR, the TAMUS Office of Academic Affairs submits the mission statement to the THECB for approval.
- 2.3 Following approval by the THECB, the A&M-Central Texas SACSCOC Liaison submits the mission statement to SACSCOC.
- 2.4 Once the mission statement is approved, it is widely circulated by the university and used to guide decision-making and strategic planning.
