

Admitted Student Handbook
Master of Science Program
Clinical Mental Health Counseling
2023-2024

College of Education and Human Development

April 23

Preface

The faculty and staff in the Clinical Mental Health Counseling Program would like to welcome you.

This Handbook is meant to support master's students (admitted to the Graduate School and the Counseling and Psychology Department) with information about the Clinical Mental Health Counseling Program at Texas A&M University – Central Texas. This handbook will provide support to, but will not replace, the Texas A&M University – Central Texas Undergraduate and Graduate Catalog.

Students are encouraged to be familiar with the most recent copy of the Texas A&M University – Central Texas Undergraduate and Graduate Catalog and meet with their faculty program advisor each semester.

Students are responsible for adherence to the policies in the Handbook edition that was current during the semester when the student was admitted.

Introduction

The Clinical Mental Health Counseling Program is one of four graduate degree programs in the Department of Counseling and Psychology within the College of Education and Human Development at Texas A&M University – Central Texas. The program was established to prepare professional counselors at the master’s (M.S.) level to meet licensure requirements in the state of Texas and to provide a pathway to become a Licensed Professional Counselor. The degree program is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP).

Program Mission

The mission of the Texas A&M University-Central Texas Counseling Program is to prepare professional counselors grounded in multicultural competence to meet the diverse needs of individuals and families in Central Texas and beyond. Graduates from our Clinical Mental Health Counseling program demonstrate the necessary counseling knowledge, skills, dispositions, professional identity and scholarship enabling them to enrich the quality of all peoples' lives as well as secure positions within the profession. The program emphasizes overall competency-based performance as well as the promotion of our students’ optimal state of health and wellness to foster continuous professional growth.

Graduate Faculty

Core Faculty

Jeremy J. Berry, PhD, LPC-S, NCC
Associate Chair
Associate Professor
jeremy.berry@tamuct.edu

Samantha Airhart-Larraga, PhD, LPC-S, LCDC, NCC
Program Coordinator, Clinical Mental Health Counseling
Assistant Professor
s.airhart-larraga@tamuct.edu

Levi McClendon, PhD, LPC, NCC
Registered Play Therapist
School Counselor Certification Preparation Coordinator
Assistant Professor
lmccleendon@tamuct.edu

Caroline, Norris, PhD, LPC, NCC
Clinic Director
Assistant Professor
carolinenorris@tamuct.edu

Affiliate Faculty

Coady Lapierre, PhD
Professor
Program Coordinator, Specialist in School Psychology
lapierre@tamuct.edu

Andria Schwegler, PhD
Department Chair
Program Coordinator, Applied Psychology
Associate Professor
schwegler@tamuct.edu

Program Objectives

It is expected that all Clinical Mental Health Counseling students will exhibit competence in the counseling core areas. Competence will be shown through didactic courses, experiential courses, field experiences, examinations, research, papers, presentations, supervised practice with clients, and successful completion of the Counselor Preparation Comprehensive Examination. Graduates of the Clinical Mental Health Counseling Program are expected to have completed program objectives listed below.

Program Objectives

Clinical Mental Health Counseling graduates will

1. develop strong professional identities as counselors.
2. establish helping relationships with diverse clients.
3. demonstrate understanding of individual and family development and transition across the life span including ways to promote optimal human development.
4. demonstrate an understanding of theories and models of career development, counseling, and decision-making approaches for conceptualizing the interrelationships between work and mental well-being.
5. demonstrate an understanding of the principles of group dynamics, including group process components, developmental stage theories, group members' roles and behaviors, and therapeutic factors of group work.
6. use research in the field and employ evidence-based practices in counseling interventions, assessments, and program evaluations.
7. abide by relevant ethics, laws, and standards of professional practice.
8. will use theories and models to guide their professional practice.

Overview of Clinical Mental Health Counseling Program

Clinical Mental Health Counseling. At the master's level, the 60-hour Clinical Mental Health Counseling program provides the academic training for counselors to work in a variety of positions in mental health agencies, such as counseling centers, drug and substance abuse centers, career counseling centers, mental health programs, employee assistance programs in business and industry, adult probation offices, MHMR agencies, corrections facilities, and private counseling practices. Completion of the

master's degree in Clinical Mental Health Counseling provides the graduate with the academic coursework requirements for Licensed Professional Counselor (LPC) in Texas.

School Counselor Certification Preparation Track. Qualifying Clinical Mental Health Counseling students may be eligible for the School Counselor Certification Preparation track, affording these students the opportunity to meet the academic requirements for both the Licensed Professional Counselor – Associate and School Counselor Educator Certification. This track prepares students to work in PreK-12th grade school districts in the State of Texas. See “School Counselor Certification Preparation Program” for more information.

Clinical Mental Health Counseling Program Requirements

The Clinical Mental Health Counseling Program requirements are described in this section of the *Handbook*. For organizational purposes, the discussion will begin with the program requirements for a master's degree in Clinical Mental Health Counseling, and the additional requirements for the School Certification emphasis area will follow.

Program Standards

Students must maintain high scholastic standards and develop skills necessary to work with people with diverse needs. Students are expected to demonstrate emotional and mental fitness in their professional fields and to conform to the code of ethics of relevant professional associations and the state of Texas. A student's acceptance in the Clinical Mental Health, , Applied Psychology, Marriage and Family Therapy, or School Psychology programs does not guarantee professional fitness that is required to remain in the program. See Student Retention Policy described below regarding what procedures will be followed when faculty believe students are not fit for a particular program.

Academic Appeal Policy

The Academic Appeals Procedure was designed to protect students from biased or inaccurate evaluation procedures without unfairly impinging on the academic freedoms of the faculty (see Catalog). Consistent with this, it is recognized that:

- Students have the right for their work to be evaluated fairly and accurately using a method consistent with professional academic standards.
- Faculty members have the right to evaluate students' work using any method that is professionally acceptable, submitted in writing to all students, and applied consistently to all students.
- It is assumed that A&M-Central Texas faculty members appropriately evaluate students' work, so the burden of proof for a grade appeal lies with the student.

The process for appealing a professor's determination that a student has engaged in academic dishonesty is separate from the process for determining if a grade was determined fairly/accurately. If a student wishes to appeal a grade that was influenced by the faculty member's belief that the student violated the university's academic integrity policy and the student denies these allegations, the student must complete the university appeal process for accusations of violating the academic integrity policy prior to initiating a grade appeal.

Justification for an Appeal

Grade appeals may only be initiated if the grade was influenced by one of the following:

- Error: A clerical/computational error was made in calculating/reporting the grade.
- Prejudice: The faculty member's evaluation of the student's work was influenced by the faculty member's negative attitude toward the student.
- Arbitrary method: The grading procedure employed departed substantially from accepted academic norms in a manner that indicated a failure to exercise professional judgment (e.g., no explanation given regarding the basis for assigning point values to assignments; grading procedure deviated substantially from what was stated in the syllabus without notifying students in advance of this change).
- Inconsistent application: The student's grade was not determined using the same process applied to other students in the course.
- Unsubstantiated charge of dishonesty: The grade was based on a charge of academic dishonesty by the student which has been determined by the university to be unsubstantiated by the evidence presented.

Insufficient reasons upon which to base an appeal include disagreement with course policies that are clearly communicated in writing to all students.

Appeal Process

A student who wishes to appeal a decision of a faculty member must request a review by that person within 30 calendar days of the originating event.

- The faculty member is required to give the student a written response within 20 business days.
- For an appeal of a course grade, the originating event shall be the posting of the grade to the university record. For an appeal of an assignment/exam grade, the originating event shall be the posting of the grade by the faculty member.

If the faculty member is not available, a response is not made within the specified timeframe, or if the student is dissatisfied with the response, the student should submit a written appeal to the Department Chair (or designated proxy; the Chair must designate a proxy if he or she is the faculty member who assigned the grade to be appealed) within 5 business days of the originating event.

- The Chair (or proxy) then has 10 business days to respond to the written appeal.

If the student is unsatisfied with the decision of the Department Chair, the student may appeal in writing to the College's Dean. The student has 5 business days of notification of the decision from the Department Chair. The Dean will give the appeal to the College's Academic Appeals Committee, who will review the student's appeal and after hearing both sides of the incident, the committee may decide that no further review is justified or may render a recommendation to the College Dean within 20 business days of receiving the student's appeal.

- The Committee will consist of a minimum of three faculty members appointed by the College Dean.
- The Committee may request additional information from the parties involved (e.g., course syllabus, work samples, testimony).

The decision of the College Dean is final and will be communicated to the student in writing within 20 business days.

Student Retention Policy

Every student enrolled in the Graduate School is required to maintain a high level of performance and comply fully with the policies of the institution. Students who have achieved admission are expected to maintain a minimum 3.0 GPA on work completed at A&M-Central Texas. The Graduate School reserves the right to suspend any graduate student who does not maintain satisfactory academic standing or fails to conform to university regulations.

Probation –At the end of any grading period, if a student’s semester or overall GPA falls below the minimum required as set by the department (at least a minimum of 3.0 GPA), she/he will be given notice of unsatisfactory academic performance and put on probation. The student must attain a 3.0 cumulative GPA during her/his next period of enrollment. Failure to do so will result in suspension.

Suspension – At the end of any grading period, if a student’s semester or overall GPA falls below a 2.0, she/he will be automatically suspended. Students may not attend classes for one long semester or the summer term. Upon return from suspension a student will sign a contract with the Graduate School stipulating the conditions that must be met for the following term. At a minimum, the graduate student must maintain a minimum 3.0 GPA for every semester thereafter. Additional stipulations may be created on a case-by-case basis. A graduate student is allowed one suspension. If poor academic performance results in a second suspension, the student will be dismissed from the current program and may be permanently dismissed from the university.

Suspension Appeal – Under exceptional conditions, a student may write a letter of appeal to the Graduate School. Consideration for reinstatement will be on a case-by-case basis and approved only *one* time by the Dean of the Graduate School or designee. There is no appeal beyond the Dean of the Graduate School.

Master's Degree (M.S.) Program

The master's degree program in Clinical Mental Health Counseling is designed around a core curriculum of classes which are selected to be consistent with national standards for master’s programs in Clinical Mental Health Counseling, state training requirements for counselors, and Texas A&M University - Central Texas requirements for graduate programs. The Clinical Mental Health Counseling program meets academic coursework requirements for licensure as a Licensed Professional Counselor (LPC) in Texas. In addition, the program requires successful completion of the Master's Comprehensive Examination. Counseling students have a maximum of six (6) years to complete the MS degree. Appendix A lists the course requirements for a degree in Clinical Mental Health Counseling.

Appendix A lists the planned 2-year sequence of Clinical Mental Health Counseling courses. Please NOTE **this sequence is planned but cannot be guaranteed.** This sequence is dependent on resources available to offer the classes.

Clinical Mental Health Counseling Program Admission Requirements

Students will be admitted into the **M.S. Clinical Mental Health Counseling** program by the faculty once the following application criteria are met:

- Successful admission to graduate school.
- Completed Counseling and Psychology Department application.
- Bachelor’s degree from a regionally accredited institution.
- Minimum GPA of 3.0.
- Clinical/Work/Volunteer Experience: While specific experience is not required, previous related work experience may make the applicant more competitive.
- Timely submission of admission materials.

School Counselor Certification Preparation Program

Students interested in seeking school counselor certification, a track within the MS in Clinical Mental Health Counseling, are encouraged to visit the [Clinical Mental Health Counseling website](#) for specific information regarding program admission. School Counselor Certification Preparation Program information and materials are available toward the bottom of the webpage.

School Counselor Certification Preparation Program Mission

The School Counselor Certification Preparation Program, in partnership with community, school districts, college, university, prepares culturally competent professional school counselors through high quality, innovative educational practices and leadership experiences, grounded in The Texas Model for Comprehensive School Counseling Programs. Program graduates are prepared to guide all PreK-12th grade students to success in personal, social, educational, and career development. Graduates are prepared to collaborate with others in and beyond their school communities to ensure opportunities for meaningful student engagement and commit to lifelong professional development in support of program, department, college, and university missions.

Why Professional School Counseling?

- Transform the lives of children, teachers, administrators, parents, and others in the school community through Classroom Guidance, Individual/Small Group Counseling, College/Career Planning, and Professional Consultation Services
- Complete LPC-Associate hours while working full-time in a school setting
- School districts provide large caseloads of students
- Competitive starting salary: Killen ISD: \$ 55,626 – 67,838

School Counselor Certification Preparation Admission Requirements

- Submit an application for entrance into the School Counselor Education Preparation Program
 - Complete a 500-word essay (part of the application)
- Teacher Service record (2 years OR 1 year with a letter of continuing employment as a certified teacher in Texas from employer)
- Copy of Valid Teacher Certificate
- Full admission to Master of Science in Clinical Mental Health Counseling Program or Master’s Degree in Counseling with at least 48 graduate hours.
- A minimum GPA of 3.0 earned on the last 60 hours of coursework completed, to include all courses in the semester where the 60th hour occurs.
- Complete a virtual interview
- Letter of Intent to pursue certification

*See appendix A for copies of the Clinical Mental Health Counseling Degree Plan and the School Counselor Education Preparation Degree Plan

Degree Plan

The M.S. degree plan is filed on the form titled “Graduate Degree Plan Acknowledgement and Responsibility Form”. To be an official contractual agreement, the plan must be signed by the Faculty Advisor, College Dean, and the student. Following approval, changes may be made in the degree plan by completing the same form and checking the appropriate revisions box. These documents must have all signatures and be submitted to the Graduate School.

Master's Comprehensive Examination

All students enrolled in the Clinical Mental Health Counseling Master’s Degree programs must pass a comprehensive examination prior to receiving their degrees. Students are permitted to take the examination during their last semester of coursework or once all approved course prerequisites have been taken. Students eligible to take the examination will enroll in COUN 5090 Comprehensive Examination CMHC. The examination is offered once each semester (usually in Nov., April, and July). To be eligible to take the Counselor Preparation Comprehensive Examination (CPCE), students must be enrolled in at least one semester hour of coursework. Because deadlines apply, students are encouraged to inquire about the procedures early in their last year of course enrollment or to speak with their advisor if they believe they are eligible to enroll in COUN 5090. COUN 5090 is a zero-credit hour course, in which students are required to register to take the exam. This allows students access to the Canvas shell created for the comprehensive examination and allows faculty to disseminate appropriate information to them related to the test. Students enrolled in the School Counselor Certification Preparation Program **must also** enroll in COUN 5090 Comprehensive Examination- School Counseling. See the School Counselor Certification Preparation Program Handbook for more information.

The CPCE is a knowledge-based examination that reflects the eight core curriculum areas approved by the CACREP: (a) Human Growth and Development, (b) Social and Cultural Foundations, (c) Helping Relations, (d) Group Work, (e) Career and Lifestyle Development, (f) Appraisal, (g) Research and Program Evaluation, and (h) Professional Orientation and Ethics. The CPCE is designed as a summative evaluation of relevant knowledge obtained by students during their counselor preparation programs. Study materials for the CPCE are available from the publisher and the National Board for Certified Counselors (NBCC).

The CPCE consists of 160 multiple-choice questions of which 136 questions are scored. The remaining 24 questions are not scored but are used as pilot questions that may be used as future test items. The examination administration time is four hours. Students are asked to select the best response to each question from four alternative responses. Students may take the evaluation a maximum of three times. Students who must re-take the exam must meet with their advisor to develop a plan of study for the exam re-take. After the examination has been administered and scored, an email indicating the examination results (Pass or Fail) will be sent to students by the program coordinator (please do not contact Clinical Mental Health Counseling Program faculty regarding examination results). After students have received the email from the program coordinator regarding the results of their

examination, they will receive a follow-up email providing more specific feedback on their performance on the eight areas of the examination.

During the semester of graduation, students must be enrolled in at least one semester hour of graduate credit. All questions regarding registration for first and second administrations of the examination and graduation procedures should be directed to the program coordinator.

While the scheduled date is usually posted early in the semester, the student is ultimately responsible for contacting the program office for information regarding the examination and for making arrangements to take it as scheduled. Examination dates are typically:

<u>Graduating Semester</u>	<u>Comprehensive Examination</u>
Fall	Early November
Spring	Early April
Summer	Early July

Credentialing/Endorsement

Credentialing is necessary for graduates to practice the profession of counseling. One means for becoming aware of the credentialing process is to talk with the Clinical Mental Health Counseling faculty. A second means is to contact the American Counseling Association, 5999 Stevenson Ave., Alexandria, VA 22304 (1-800-347-6647 ext. 397 or 703-823-0252 ext. 397).

The Clinical Mental Health Counseling Program faculty will only endorse students for those professional certifications, licenses, and placements for which they have been adequately trained and have demonstrated both the academic and non-academic attributes required for competence. Only students who have been admitted to the Clinical Mental Health Counseling Program and have completed the 60-semester hour Master's degree in the Clinical Mental Health Counseling program will be eligible for endorsement for licensure as a LPC by the Clinical Mental Health Counseling faculty. To ask the faculty to endorse licensure or certification for which the student has not been trained is to ask the faculty to engage in unethical behavior.

Licensed Professional Counselor

By state law, with few exceptions (e.g., school counselors), all individuals who call themselves professional counselors or who practice counseling independently must be licensed. Recipients of a Master's Degree in Clinical Mental Health Counseling from TAMUCT have met the academic requirements for licensure in the state of Texas. In addition to academic training, post-master's supervision is also required. Students planning to be licensed should contact the Texas State Board of Examiners of Professional Counselors, 1100 West 49th Street, Austin, Texas 78756-3183 (512-834-6658) for additional information about licensure in Texas. Students (not faculty) are responsible for obtaining copies of the counselor licensing law and license board regulations and for understanding and following their contents. The LPC Board in Austin grants licensure (not TAMUCT).

Please note the Clinical Mental Health Counseling Program is not designed for individuals holding a Master's degree and desiring to only complete eligibility requirements for the LPC. Instead, the program is designed for students seeking a Master's degree in Clinical Mental Health Counseling.

Thus, all students seeking licensure as an LPC must be admitted to the Clinical Mental Health Counseling Program and must complete the 60-hour program.

Practicum and Internship Policies

Eligibility

Eligibility for enrollment in practicum and internship classes requires admission to the Clinical Mental Health Counseling Program and completion of all prerequisite coursework with a grade of ‘B’ or higher (see Appendix A). The prerequisites are strictly enforced by the Clinical Mental Health Counseling faculty. Students must have a 3.0 GPA or higher and not be on academic probation. Students must show satisfactory progress and acceptable standards of conduct. And every applicant must be approved for eligibility by the practicum/internship director.

Any program faculty member may challenge a student's eligibility or fitness for a practicum or internship under the Student Performance Fitness Evaluation Policy of the department. No student will be admitted to a practicum/internship until all challenges to eligibility have been resolved.

Application/Enrollment Process

- Students can complete the initial application for fieldwork courses online by clicking the link found on the program’s webpage. Application Deadlines:
Fall June 1st
Spring September 1st
Summer February 1st
- The CMHC Field Experience Coordinator will review applications and then contact students via email to notify them of their eligibility for fieldwork.
- Students applying for Practicum (i.e., first semester of fieldwork) will also complete a separate set of application materials for the training clinic (Community Counseling and Family Therapy Center). This includes consent for a background check and verification of training required to work in the CCFTC.
- Application for practicum/internship experiences must be submitted for each experience.
- Acceptance and completion of one practicum/internship course does not assure acceptance to a second practicum/internship.
- Students who are approved for practicum/internship will be enrolled into an appropriate section by the CMHC Field Experience Coordinator; students cannot directly register for practicum/internship.

The link to the field experience application is found here:

https://cttamus.co1.qualtrics.com/jfe/form/SV_5BJuC96iRVA6eIC

Prior to enrollment in practicum and internship classes, student’s liability insurance is purchased by the university.

*Materials relevant to practicum and internships, including applications and supervisory documentation are located in Appendix C of this Handbook.

Required Hours

- Practicum: Students complete supervised counseling practicum experiences that total a minimum of 100 clock hours over a full academic term that is a minimum of 10 weeks. At least 40 of these clock

hours must involve direct service with actual clients that contribute to the development of counseling skills. Hours in excess of these minimums cannot be applied to requirements for Internship.

- Internship: Students complete 600 clock hours of supervised counseling internship in roles and settings with clients relevant to their specialty area. Internship students complete at least 240 clock hours of direct service. Internship may be completed in no less than two and no more than three full academic terms (each being a minimum of 10 weeks). To help ensure students complete their hour requirements in no more than three semesters, a minimum number of clock hours involving direct client contact are required for each semester of Internship (90 hours in the Fall or Spring and 60 hours in the Summer).
- Students enrolled in the School Counselor Certification Preparation Program must complete all Internship Hours (i.e., 600 clock hours) in a school setting registered with Texas Education Agency. See the School Counselor Certification Preparation Handbook for more information.

Between-Semester Hours

Students who have successfully completed their first semester of fieldwork (Practicum) and fulfill certain requirements may be eligible to continue accruing hours during the breaks between semesters to be applied to the requirements for Internship. Students wishing to accrue hours during breaks between semesters must obtain approval prior to the break from their site supervisor, the faculty supervisor who will be evaluating them when the semester resumes, and from the CMHC Fieldwork Coordinator. This approval must be documented in the Continuing Supervision Checklist (located in Appendix C of this Handbook) and by completing the CMHC Internship Bridge Agreement (located in Appendix C of this Handbook). Practicum students are not allowed to obtain any direct hours prior to the start of the practicum course. Training required by a student's site prior to the beginning of a practicum/internship course may count as indirect hours with approval of the responsible instructor.

Incomplete Hours

Students who do not complete coursework and/or required hours during their internship course will not be eligible to receive an Incomplete grade for the course. Instead, students who are unable to fulfill the course requirements must sign-up for an additional semester of internship.

Locating and Selecting a Practicum/Internship Site

- The student seeks and chooses the practicum/internship site. A site must be deemed appropriate by the CMHC Field Experience Coordinator to be approved. Sites that are greater than 75 miles from the Killeen campus must additionally be approved by the student's Program Coordinator.
- The student must provide the names and phone numbers of contacts at the site, as well as detailed information about the services offered and potential experiences for the student. To approve a site, the practicum/internship director will consider the qualifications of supervisors at the site, the experiences to be offered the student, the coursework, degree plan, and licensure/certification sought by the student, and the quality of the services offered at the site. The CMHC Field Experience Coordinator may deny placement of a student at a particular site if the site is deemed inappropriate for meeting the educational needs of the student.
- It is highly recommended that students seeking sites meet with the CMHC Field Experience Coordinator early in the semester of the application deadline to get pre-approval of the site. This will help to ensure that adequate time is available to find an alternate site in case a site is not approved.

- School Counselor Certification Preparation Program students must complete separate paperwork with the School Counselor Certification Preparation Program **before** the Internship semester begins.
- In some instances, students may be required to provide health certificates or evidence of immunization to work with clients. Because it is the responsibility of students to prepare themselves for course requirements, liability insurance must be purchased sufficiently prior to beginning a practicum or internship course to avoid delays in working with clients. Students are also responsible for renewing the insurance as needed.

External Site Dismissal

If at any point during a practicum/internship term a student is removed from their placement site for reasons that violate the site's agreement, whether clinical or conduct based, the student may be subject to a formal fitness to practice evaluation. This evaluation may include a formal remediation meeting in which additional requirements may be placed on the student to resolve any need presented in the remediation. Removal from the program is possible if a student fails to complete the required remediation or if certain legal or ethical concerns reach a level in which the faculty believe the student cannot continue in the program.

Withdrawals

Following registration, students may decide to withdraw from the university. Students must contact both the Registrar's Office and the Graduate School to formally process withdrawal requests. Failure to formally withdraw from classes will result in a failing grade in all classes.

Impairment

According to the *ACA Code of Ethics* (2014), counselors and counselors-in-training do not offer counseling services to clients when their physical, mental, or emotional problems may harm a client or others (see Sections F.5.a and F.5.b). It is the responsibility of the counselor or counselor-in-training to be aware of signs of impairment, seek assistance for their problems, and notify program supervisors that they are unable to provide acceptable services to clients. Counselors and counselors-in-training should seek appropriate professional services to remediate the problem(s) interfering with their ability to provide services.

It is the policy of the Clinical Mental Health Counseling Program that if a student has a physical, mental or emotional problem that could potentially harm clients or others, that student will be prohibited from seeing clients until the student has completed a remediation plan. For example, it is the policy of the Clinical Mental Health Counseling Program that if a student has a documented relapse or a self-reported relapse, she/he will not see clients until a remediation plan is completed and the student can provide verified documentation of at least one year of "clean" time. This follows the *ACA Code of Ethics* (2014) policy on Gatekeeping and Remediation (see section F.6.b).

Leaves of Absence

Because of extenuating circumstances (usually medical, financial, or personal), a student may request a leave of absence from the Graduate School. In requesting a leave of absence, a written request should be submitted to the Graduate School and a copy of the request should be sent to the Clinical Mental Health Counseling Coordinator. Courses taken more than six years ago cannot be counted toward a degree. Thus, any leave of absence should be considered carefully. Further an absence or non-continuous enrollment can prevent the student from making continuing progress toward his/her degree. When continuing progress is not made, the student may be dropped from the Clinical Mental Health Counseling Program.

Transfer Credit

Although a faculty member can review and recommend courses for transfer, a formal decision on transfer credit cannot be made until a Degree Plan, available from the Graduate School, has been submitted by the student and approved by the student faculty advisor and approved by the Graduate School. Following approval by the Graduate School, the Degree Plan becomes an agreement between the student and University with regard to coursework required for graduation. Providing the coursework is no older than six (6) years and is from a CACREP approved Clinical Mental Health Counseling Program, a maximum of 6-12 semester hours may be transferred at the master's degree level. All transfer credit must be from an accredited university and a **CACREP accredited Clinical Mental Health Counseling Program** and be equivalent to the course substitution at Texas A&M University - Central Texas.

Please note that transfer credit from another institution for COUN 5350, 5353, 5354, 5357, 5358, 5086, and 5393 **will not** be accepted; these courses must be taken in the Clinical Mental Health Counseling program. It is the student's responsibility to supply information that establishes any course for transfer as equivalent to a course at Texas A&M University - Central Texas. Usually, the equivalency can be established by meeting with the faculty advisor at Texas A&M University - Central Texas and providing a course description and a course syllabus from the course under consideration for transfer.

Financial Assistance

Financial assistance is available to graduate students usually via student loans, work study, scholarships, and research assistantships. Students interested in financial aid should contact the Financial Aid Offices located in Founders Hall, Room 108 or contact the financial aid offices by email at finaid@tamuct.edu. If a student is inquiring about scholarships, they can contact the following email address scholarships@tamuct.edu.

Student Loans

Students having a financial need may qualify for a student loan. Information about student loans may be obtained from the Student Financial Center (Financial Aid) in Founders Hall.

Ethics and Professional Development

The Clinical Mental Health Counseling Program faculty endorses and implements the American Counseling Association *Code of Ethics* (2014). Students and supervisees preparing to become counselors

are required to adhere to the *ACA Code of Ethics* and have the same obligations to clients as those required of professional counselors.

Professional Associations

Students are encouraged to seek membership in the American Counseling Association and its divisions. The benefits of student membership are many, while the student membership fee is low. For more information, call 1-800-347-6647 ext. 222 or visit www.counseling.org. We also encourage students to be members of the Texas Counseling Association and the Mid Texas Counseling Association.

Chi Sigma Iota is the national counseling honor society. Students may apply for membership in Chi Sigma Iota if the following criteria are met: the student must be admitted to the Clinical Mental Health Counseling program; the student must be in good standing and cannot have remediation or probationary status; the student must maintain a minimum GPA of 3.5; and the student must have completed a minimum of 12 hours of graduate counseling credits. For more information, see www.csi-net.org, or Dr. Jeremy Berry (jeremy.berry@tamuct.edu).

Affirmative Action

The Clinical Mental Health Counseling Program faculty support and endorse the policies/procedures from the Affirmative Action Office at Texas A&M University - Central Texas. A copy of the policy is available from the Human Resources Office in Warrior Hall, Room 424.

Sexual Harassment

The Clinical Mental Health Counseling Program faculty support and endorse the Sexual Harassment Policy adopted by Texas A&M University - Central Texas. A copy of the policy is available from the Office of Institutional Compliance, Warrior Hall, Room 425.

Americans With Disabilities Act

The Clinical Mental Health Counseling Program faculty support and endorse the Americans with Disabilities Act. A copy of the act is available from the Office of Institutional Compliance, Warrior Hall, Room 425.

Graduation

Graduation from the Clinical Mental Health Counseling Program entitles students to participate in the campus-wide graduation ceremony held December, May, and August each year. Students are encouraged to participate in the graduation ceremonies. It is the student's responsibility to be cognizant of and to complete the various graduation forms and fees within the specified deadlines. Information regarding graduation is available from the Graduate School, Founders Hall, Room 424C. Failure to complete the appropriate forms within the specified deadlines will result in the student being unable to graduate during that semester. Students who are not participating in the official graduation ceremony should contact the Graduate School and make arrangements for obtaining their diploma.

Highest Degree	Year Completed	Name of University	Field of Study	CACREP Accredited?
Licensure	License #		Years of Post-Graduation Experience in Mental Health	

Purpose of the Agreement

The purpose of this agreement is to specify the nature of the relationship between TAMUCT, co-trainer, and the student during the internship (field placement). This agreement reflects our common interests in educating counselors and therapists and preparing them for professional responsibilities in agencies, institutions, and private practice.

This agreement neither requires nor involves an exchange of funds between TAMUCT and co-trainer. This agreement does not imply that TAMUCT will provide onsite supervision. Extensions of the programs for a student beyond one semester must be mutually agreed to by TAMUCT, co-trainer, and student and must be needed to meet training objectives and requirements. **The University Program at TAMUCT Agrees**

- A. To the extent permitted by law, the anonymity of clients will be maintained.
- B. To provide a minimum of 1.5 hours of weekly group supervision to the student by the faculty supervisor and up to 1.0 hours/week of biweekly individual/triadic supervision if needed.
- C. That the university's faculty supervisor will collaborate/consult with the co-trainer's site supervisor to ensure the student's learning needs are addressed.
- D. To provide on-site visits by the university's faculty supervisor or practicum/internship director as needed.
- E. That assignment of students' grade for the semester is the responsibility of the TAMUCT faculty supervisor.

- F. That students' work will be subject to critique by the university supervisor via direct observation, tapes of sessions, and/or personal conferences.
- G. That the co-trainer will not be charged for services performed by TAMUCT personnel or students.
- H. That the co-trainer shall not be liable on account of injury, sickness, disease, or death of any student, personnel, or faculty member using the resources of the co-trainer under the terms of this agreement. Further, TAMUCT agrees, only insofar as it is authorized by law to do so, to hold the co-trainer harmless from and against liability of personal injury, including injury involving death, or damage to property, that results directly or indirectly from the use by TAMUCT of co-trainer resources under this Agreement.
- I. That the students and faculty are to have adequate health insurance or be responsible for their own expenses in case of injury, illness, or hospitalization.

The Practicum / Internship Site Agrees

- A. To the extent permitted by law, the anonymity of clients will be maintained.
- B. To provide weekly on-site supervision by the co-trainer's on-site approved supervisor that averages 1 hour per week. At least half of these supervision hours will include individual/triadic supervision.
- C. The co-trainer's on-site approved supervisor has the following qualifications:
 - a. a minimum of a master's degree in counseling or a related profession with equivalent qualifications, including appropriate certifications and/or licenses.
 - b. a minimum of two years of pertinent professional experience in the program area in which the student is enrolled.
 - c. knowledge of the program's expectations, requirements, and evaluation procedures for students; and relevant training in counseling supervision.
- D. The co-trainer's site supervisor will collaborate/consult with the university's practicum/internship faculty supervisor to ensure the student's learning needs are addressed.
- E. To indemnify or "hold harmless" TAMUCT and/or its employees for any injuries occurring to the student or to the people with whom the student has contact should such injuries occur during the student's period of enrollment.
- F. That co-trainer has the right and privilege of reviewing and interviewing student applicants and determining whether they will be acceptable. Such decisions will be in keeping with federal guidelines protecting civil rights and rights of the disabled.
- G. While providing site supervision for students, co-trainer will retain overall clinical responsibility for clients/patients.
- H. To provide the student with the opportunity to provide direct service with actual clients that contributes to the development of counseling skills.
- I. To provide the student with the opportunity to become familiar with a variety of professional activities and resources in addition to direct service (e.g., record keeping, assessment instruments, supervision, information and referral, in-service and staff meetings).
- J. To provide adequate space, equipment, and supplies during the period of supervision as would be provided to professional counselors and therapists.
- K. That the on-site supervisor will, as part of his/her supervisory responsibilities, provide evaluative feedback to the student and to TAMUCT supervisor on a regular basis.
- L. That the on-site supervisor will provide TAMUCT with a written final evaluation of the student using at minimum the forms provided by TAMUCT for this purpose. To the extent provided by law, this evaluation will be made available to potential employers only on written request by the student.
- M. That co-trainer reserves the right to suspend a student for inadequate, unprofessional, or illegal conduct or behavior for any reason deemed justifiable by co-trainer. Co-trainer agrees to communicate such status changes to the student in accordance with due process guidelines, to include written and verbal communication between co-trainer and university supervisor and same between co-trainer and student regarding cause of suspension or dismissal. After notification regarding the change of student status, the Department of Psychology and Counseling will convene a committee of program faculty to determine an appropriate course of action. Recommendations will be in accordance with established policy, procedure, and statute.
- N. That co-trainer is not for any purpose an agent of TAMUCT.

The University Student Agrees

- A. To the extent permitted by law, the anonymity of clients will be maintained.
- B. That he/she retains the right to conference with university supervisor regarding case assignments and training experiences.
- C. That in addition to field assignment, student will attend all required meetings with university supervisor and with the on-site supervisor.
- D. To adhere to the regulations, policies, and practices of co-trainers so long as they are legal and ethical. He/she will conduct him/herself in a professional manner, complying with ethical principles of the profession and with due concern for confidentiality and the well-being of the co-trainer's clients/patients.
 To address any concerns that may arise about the co-trainer's site and/or staff via professionally appropriate channels. The first course of action if a student has a concern about a placement is to address this with their site supervisor or his/her immediate supervisor. If this is not feasible, the student
- E. should raise his/her concern with his/her TAMUCT faculty supervisor or his/her immediate supervisor.
- J. To purchase and keep in effect a personal liability insurance policy which is acceptable to the co-trainer and shall provide a valid certificate of such insurance to TAMUCT prior to beginning internship and/or practicum.
- K. That he/she is responsible for meeting all screening and training requirements for employment at the site (e.g., background checks, drug screens, immunizations).
- L. That he/she will be responsible for their own meals, laundry, and transportation to and from the co-trainer's assigned facilities.

Termination

This agreement will remain in effect during the semester(s) the specified student whose name appears above is assigned to the cotrainer named in the first paragraph of this document. TAMUCT or co-trainer may terminate this agreement by giving ten (10) days written advance notice to the other party. Further, a violation of this agreement by any party may lead to termination of the agreement.

PSYCHOLOGY AND COUNSELING PRACTICUM
Texas A&M University – Central Texas

Statement of Confidentiality

I, the undersigned, do agree to hold in strictest confidence personal information gained in a practicum/internship. This agreement is in accordance with established Codes of Ethics from professional associations as well as the licensure laws of the state of Texas. I understand the necessity for such an agreement and will abide by the implicit and explicit demands of this statement. I further understand that breaches of confidentiality will result in disciplinary action including possible dismissal from the Texas A&M University – Central Texas Psychology and Counseling Program.

Date

Affirmation, Waiver, and Liability Release
TEXAS A&M UNIVERSITY – CENTRAL TEXAS
PSYCHOLOGY AND COUNSELING PRACTICUM

In consideration of being allowed to participate in a practicum course and the field placement requirement of said course, the undersigned student agrees:

1. To waive all claims for liability against Texas A&M University – Central Texas, the Board of Regents, the Texas A&M University System, their respective officers, agents, servants, and employees, arising or in any way predicated upon acts or omissions, in connection with the above-described class and program. The undersigned agrees to hold harmless Texas A&M University – Central Texas, the Board of Regents, the Texas A&M University System, their respective officers, agents, servants, and employees from any and all liability arising out of, or in any manner predicated upon, loss or damage to property, injury or death to the undersigned, which injury may occur in connection with the operation of the above described class and program, regardless whether or not such injuries arise, in whole or in part, from the negligence of TAMUCT or its employees.
2. That his/her participation in said class will make use of personal student experiences in the group in a classroom situation, and I hereby give my informed consent to the usage of these experiences and further agree and consent that professional observations and/or findings as well as student comments may be communicated to and discussed with the group in a classroom situation. The undersigned agrees to hold harmless Texas A&M University – Central Texas, the Board of Regents, the Texas A&M University System, their respective officers, agents, servants, and employees from any and all liability arising out of or in any way predicated upon acts or omissions, in connection with the activity described in this paragraph.
3. To hold harmless Texas A&M University – Central Texas, the Board of Regents, the Texas A&M University System, their respective officers, agents, servants, and employees from all liability arising from participation in the field practicum/internship or which might be due to injuries because of the co-trainer’s negligence. Co-trainer represents any agency, institution, or facility outside Texas A&M University – Central Texas that accepts responsibility of supervising a student intern.
4. That he/she assumes all risk involved in participation in this field practicum/internship program. This assumption is made freely and voluntarily and with full and complete understanding of the consequences of such risk assumption.
5. That his/her fitness for providing counseling services will be continually monitored by faculty and onsite supervisors, and I hereby give my informed consent for my faculty supervisor, on-site supervisor, and practicum/internship director to share information about my performance to facilitate this evaluation.

3. The type of client who I would most like to work with is:
4. The type of client who I would least like to work with is:
5. I feel most qualified/skilled to work with:
6. I feel least qualified/skilled to work with:
7. An area of competence I would like to enhance or develop is:
8. My ideal site supervisor would have the following characteristics:
9. I feel most comfortable in a working environment with the following characteristics:
10. I have had the following professional or volunteer experience and/or course work related to counseling:
11. My personal areas of strength and weakness which should be considered in the site selection process include:
Strengths:

Areas for improvement:
12. My ideal counseling internship would be a(n) _____ agency performing _____ duties with _____ (type of population).

****Ideally you should complete this form prior to contacting sites, and then use the information herein when consulting with your program advisor or the practicum/internship director to narrow your search to sites most appropriate to your needs/expertise.**

Internship Bridge Agreement

Clinical Mental Health Counseling

I, _____, am applying to continue my fieldwork experiences during the break between _____ (semester/year) and _____ (semester/year). I have secured permission as specified in the following agreement.

This cooperative agreement is between the Department of Counseling and Psychology at Texas A&M University – Central Texas and _____ (**name of site**), hereinafter referred to as a co-trainer. The purpose of this agreement is to specify the nature of the relationship between TAMUCT, co-trainer, and the student during the field placement experiences between academic semesters. This agreement reflects our common interests in educating counselors and therapists and preparing them for professional responsibilities in agencies, institutions, and private practice.

In consideration of their participation in a cooperative internship, and the benefits and responsibilities accruing to the parties from such an agreement, TAMUCT, co-trainer, and student, each individually agree as follows:

I.

This agreement neither requires nor involves an exchange of funds between TAMUCT and co-trainer. This agreement does not imply that TAMUCT will provide onsite supervision. Extensions of the programs for a student beyond one semester must be mutually agreed to by TAMUCT, co-trainer, and student and must be needed to meet training objectives and requirements.

II.

TAMUCT agrees:

- A. To the extent permitted by law, anonymity of clients will be maintained.
- B. That the university faculty will not be obligated to provide group or individual supervision to the student during the break between semesters.
- C. That the university's faculty supervisor will collaborate/consult with the co-trainer's site supervisor prior to the break to ensure the student's learning needs are addressed.
- D. That students' work will be subject to critique by the university supervisor via direct observation, tapes of sessions, and/or personal conferences once the academic term resumes.
- E. That the co-trainer will not be charged for services performed by TAMUCT personnel or students.
- F. That the co-trainer shall not be liable on account of injury, sickness, disease, or death of any student, personnel, or faculty member using the resources of the co-trainer under the terms of this agreement. Further, TAMUCT agrees, only insofar as it is authorized by law to do so, to hold the co-trainer harmless from and against and liability of personal injury, including injury involving death, or damage to property, that results directly or indirectly from the use by TAMUCT of co-trainer resources under this Agreement.

- G. That the students and faculty are to have adequate health insurance or be responsible for their own expenses in case of injury, illness, or hospitalization

III.

Co-trainer agrees:

- A. To the extent permitted by law, anonymity of clients will be maintained.
- B. To provide weekly on-site individual/triadic supervision by the co-trainer's on-site approved supervisor that averages 1 hour per week.
- C. The co-trainer's on-site approved supervisor has the following qualifications:
 - a. a minimum of a master's degree in counseling or a related profession with equivalent qualifications, including appropriate certifications and/or licenses.
 - b. a minimum of two years of pertinent professional experience in the program area in which the student is enrolled.
 - c. knowledge of the program's expectations, requirements, and evaluation procedures for students; and
 - d. relevant training in counseling supervision.
- D. The co-trainer's site supervisor will collaborate/consult with the university's practicum/internship faculty supervisor prior to the break to ensure the student's learning needs are addressed and will provide a summary evaluation of the student's work at the end of the break.
- E. To indemnify or "hold harmless" TAMUCT and/or its employees for any injuries occurring to the student or to the people with whom the student has contact should such injuries occur during the student's period of enrollment.
- F. That co-trainer has the right and privilege of reviewing and interviewing student applicants and determining whether they will be acceptable. Such decisions will be in keeping with federal guidelines protecting civil rights and rights of the disabled.
- G. While providing site supervision for students, co-trainer will retain overall clinical responsibility for clients/patients.
- H. To provide the student with the opportunity to provide direct service with actual clients that contributes to the development of counseling skills.
- I. To provide the student with the opportunity to become familiar with a variety of professional activities and resources in addition to direct service (e.g., record keeping, assessment instruments, supervision, information and referral, in-service, and staff meetings).
- J. To provide adequate space, equipment, and supplies during the period of supervision as would be provided to professional counselors and therapists.

- K. That the on-site supervisor will, as part of his/her supervisory responsibilities, provide evaluative feedback to the student and to TAMUCT supervisor on a regular basis.
- L. That the on-site supervisor will provide TAMUCT with a written final evaluation of the student using at minimum the forms provided by TAMUCT for this purpose. To the extent provided by law, this evaluation will be made available to potential employers only on written request by the student.
- M. That co-trainer reserves the right to suspend a student for inadequate, unprofessional, or illegal conduct or behavior for any reason deemed justifiable by co-trainer. Co-trainer agrees to communicate such status changes to the student in accordance with due process guidelines, to include written and verbal communication between co-trainer and university supervisor and same between co-trainer and student regarding cause of suspension or dismissal. After notification regarding the change of student status, the Department of Psychology and Counseling will convene a committee of program faculty to determine an appropriate course of action. Recommendations will be in accordance with established policy, procedure, and statute.
- N. That co-trainer is not for any purpose an agent of TAMUCT.

IV.

Student agrees:

- A. To the extent permitted by law, anonymity of clients will be maintained.
- B. That he/she retains the right to conference with university supervisor regarding case assignments and training experiences once the academic term resumes.
- C. That in addition to field assignment, student will attend all required meetings with university supervisor and with the on-site supervisor.
- D. To adhere to the regulations, policies, and practices of co-trainer so long as they are legal and ethical. He/she will conduct him/herself in a professional manner, complying with ethical principles of the profession and with due concern for confidentiality and the well-being of the co-trainer's clients/patients.
- E. To address any concerns that may arise about the co-trainer's site and/or staff via professionally appropriate channels. The first course of action if a student has a concern about a placement is to address this with their site supervisor or his/her immediate supervisor. If this is not feasible, the student should raise his/her concern with his/her TAMUCT faculty supervisor or his/her immediate supervisor.
- H. To purchase and keep in effect a personal liability insurance policy which is acceptable to the co-trainer and shall provide a valid certificate of such insurance to TAMUCT prior to beginning internship and/or practicum.
- I. That he/she is responsible for meeting all screening and training requirements for employment at the site (e.g., background checks, drug screens, immunizations).

- J. That he/she will be responsible for their own meals, laundry, and transportation to and from the co-trainer's assigned facilities.
- K. CMHC faculty will not provide supervision during a bridge between terms. Supervision will come from the Site supervisor only.

This agreement will remain in effect during the break between semesters the specified student whose name appears below is assigned to the co-trainer named in the first paragraph of this document. TAMUCT or co-trainer may terminate this agreement by giving ten (10) days written advance notice to the other party. Further, a violation of this agreement by any party may lead to termination of the agreement.
